Members of the Pickaway County Records Retention Committee Joyce Gifford, Pickaway County Auditor; Judy Wolford, Pickaway County Prosecutor, and Melissa Betz, Pickaway County Auditor, and Jim Dean, Clerk of Courts, met with the Commissioners for its first of two annual meetings as required by the Ohio Revised Code.

The purpose of the meeting was to review and obtain Commissioner Wippel's signature, Chairman of the Records Retention Committee, on a RC-2 form, SCHEDULE OF RECORDS RETENTION AND DISPOSITION, filed by the local Job & Family Services Department for the disposal of eligible records after satisfying their required retention period. Administrative Records; Child Support Records; Public Assistance Records; Child Care Records; Healthchek Records; Non-Emergency (NET) Records; Benefit Recovery Records; and Workforce Investment Area Records were listed on the RC-2 FORM for disposal. Children's Services records were also included on the form and identified that they are to be kept on a permanent basis, which will be contained within the Pickaway County Records Retention Center located in the old jail. Authorization from the Ohio Historical Society and the Auditor of State office is required on the RC-2 form as well.

Mrs. Gifford informed the Commissioners of a Records Retention and Destruction seminar she will be attending on April 2, located at Copper Hall, 6800 Schrock Hill Court, Columbus, Ohio.

It was then determined that the second of the required two annual meetings of the Pickaway County Records Retention Committee is scheduled for Monday, September 15, 2008, at 11:00 a.m., located in the County Commissioners' Board Room.

implementation of IT services to the county; the 2-year non-solicitation clause of *Info-Link Technologies'* employee(s); pricing/negotiations for the 1-year automatic contract renewal; governing law associated with any litigation involving the agreement to be held in a Knox County Court (the home county of *Info-Link Technologies*); and the confidential information clause related to any sensitive materials or trade secrets of *Info-Link Technologies* falling under the public records laws to which the county must adhere.

At the conclusion of the overview Mr. Rule stated that he will contact his firm to make the necessary adjustments to the contract and report back to the Commissioners later in the day for their signatures after obtaining the county prosecutor's signature for approval as to form. **In the Matter of**  
**Meeting with Nate Green,**  
**Economic Development Director,**  
**Regarding *Building Ohio Jobs Initiative*:**

Nate Green, P3 Economic Development Director, met with the Commissioners to request their consideration of endorsing Governor Strickland's *Building Ohio Jobs* bond initiative in the near future.

Mr. Green stated that by way of the state issuing bonds over the next 3 years, the *Building Ohio Jobs* initiative is a \$1.7 billion jobs package that would create more than 80,000 jobs in Ohio and would lay the foundation for long-term economic prosperity in the state. Essentially, the state would sell \$1.7 billion in bonds in January 2009, which would be distributed over the next 3-year period. The bond issue would not result in any additional costs in the current biennium. In the next biennium, (FY 2010-11), the state would need to set aside an additional \$152 million in its General Fund Revenue (GFR) budget for debt service over the next seven years, which equals about one-fourth of one-percent of the projected FY 2010-11 GFR budget. Even with this additional debt service, total debt service spending as a percent of the budget will remain well under the state's 5% debt limit.

Distribution of the funds, earmarked as follows, could have a significant positive impact on Pickaway County:

- **The Clean Ohio Fund:** \$400 million would be invested in the Clean Ohio Fund. Mr. Green pointed out that there are several Brownfield real property sites within the City of Circleville and the county for which the expansion, redevelopment, or reuse of may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.
- **Public Works Commission:** \$600 million in funds would be distributed using the existing public works process and increase available funds currently utilized by the County Engineer and townships and would allow Ohio to partner with local communities to respond to the effects of the current economic downturn. The investment would allow Ohio to quickly infuse resources into local communities to the meet critical infrastructure needs throughout the state by investing in roads, bridges, and water systems which would create jobs and spur business development.
- **Advanced Energy:** \$250 million would address the rising demand and costs for energy in combination with the state's manufacturing strength and would create an opportunity for Ohio to take the lead in the fast-growing advanced energy industry. This investment would nurture and attract firms in energy production, delivery, and storage. It would also support new companies building and commercializing technologies to produce cleaner, domestically secure energy.
- **Bio-based Products:** \$100 million would be invested for the development and expansion of the state's bio-products industry, making new products from the cultivation of Ohio crops. With the state's research expertise in this field, as well as its strong agriculture industry, *Building Ohio Jobs* would solidify Ohio as a nation leader in bio-products.
- **Biomedical Industry:** \$200 million would build on the successful investments the state has already made in the biomedical industry and encourage innovation, development, and commercialization of biomedical and biotechnological projects.
  
- **Logistics and Distribution Infrastructure:** \$150 million would be invested to help create a seamless multimodal transportation infrastructure across the state, lining rails, roads, waterways, and airports. This component could have the most significant impact on Pickaway County in relationship to the Rickenbacker Intermodal Terminal. This infrastructure investment would spur economic development and further attract and create jobs.

**MONDAY, MARCH 17, 2008**  
**OFFICE OF THE BOARD OF COMMISSIONERS**  
**PICKAWAY COUNTY, OHIO**

Mr. Green stated that Governor Strickland is seeking local endorsement of the initiative from counties; cities; villages; townships throughout the state to provide backing in order to go to the voters in November of this year. Commissioner Reeser then commented that the Board of County Commissioners had been made aware of the initiative and that he spoke with the Executive Director of the Mid-Ohio Regional Planning Commission (MORPC) that was also asked to provide its endorsement. The commission requested additional time for more in depth exploration. Commissioner Reeser stated that he also discussed the matter with Representative John Schlitcher, who indicated that he needs more time as to study the matter as well.

At the conclusion of the discussion, it was determined that the Commissioners, while not taking a unfavorable stance on the initiative, needed a little more time to consider providing their endorsement of the *Building Ohio Jobs* initiative.
